

Bucks Patoss Presents...

Assistive Technology: How It Changed My Life & What It's All About!

Sean Douglas – The Codpast

We are very excited to welcome you to what promises to be a highly engaging event, which focuses on the different forms of assistive technology (AT) that can support learners with SpLD. AT is not just for adults, but can be used by learners of all ages and can be the key to unlocking skills which will help all areas of learning and life. Absolutely no AT experience is necessary – don't be scared, all will be revealed!

Sean Douglas is the 'Chief Dyslexic' and Founder of 'The Codpast', a fresh and contemporary online resource for students and adults with dyslexia. The Codpast uploads videos and podcasts with reviews and tips for using different forms of AT, as well as study skills, dyslexic life hacks and positive role models. Sean is a firm advocate for dyslexia and has featured on the BBC on the issue of Workplace Dyslexia Discrimination.

Join us at this event to develop your awareness of assistive technology!
